

# ARCHAEOLOGY - 2015

Archaeology is the scientific study of the prehistoric and historic human past. Archaeologists examine past cultures through the study of artefacts, human remains and other sources. Students learn from working on a range of archaeological sites in Australasia, the Pacific Islands, Central America and the Near East. They also gain skills in our Archaeology Laboratory, the ATARC (Archaeology Teaching and Research Centre) and the Anthropology Museum that enable them to assess the importance of the human past in understanding our culturally diverse modern world.

Archaeology is available as

- single and extended majors in the Bachelor of Arts or a major in the Diploma in Arts
- electives as part of the Bachelor of Social Science, or another degree program offered by UQ

### Requirements for majors

Please note that a course can only count towards **ONE** major within the program. Students should declare their chosen major/s via mySI-net by their third year.

Program rules and requirements for the Bachelor of Arts can be accessed online at <http://www.uq.edu.au/study>.

### Bachelor of Social Science

This program offers students a sound academic basis for careers relating to people, or postgraduate study.

The following majors are available in the Bachelor of Social Science

- Criminal Justice
- Development
- Health and Society
- Social and Public Policy

### Honours

Honours can be undertaken as a fourth year of study following completion of the Bachelor of Arts or Bachelor of Social Science. Honours provides students with skills that are highly sought after by employers, particularly in advanced training in research design and methods, experience in conducting independent research and advanced communication skills. Students who do very well during their honours year may be eligible to go onto a research higher degree (Master or PhD).
