

FRIDAY 30 NOVEMBER 2018

Pre-conference workshop 9.30am - 5pm GCI (Bld 20), UQ St Lucia

The workshop aims to:

- * Bring together postgraduate students and ECRs to build connections with fellow researchers across disciplines and study areas;
- * Discuss emerging challenges in agrifood research and workshop ideas for future and current research; and
- * Consider the role of our research network in and outside of academia.

As early career agri-food scholars, this workshop will focus on the “future” of agri-food studies: emerging themes, theories and methods and critical engagement with the role of our work in and outside of academia. The programme will include activities to get to know each other, as well as three workshop sessions themed around power and inequality in food systems, food systems and the interconnectedness of global changes, and applied “action” research for translating academic work into practice. Sessions will be facilitated by leading food systems practitioners and academics, including Shalmali Guttal from *Focus on the Global South* and Professor John Ingram from *U. Oxford*.

APPLICATION

Please email Zannie Langford by **31 August** with the following information:

1. Name; University; Position (PhD or Masters Student, ECR); Email Address
2. Please introduce yourself with a brief statement of your background (<100 words)
3. Describe your research interests (<200 words)
4. Describe why you wish to attend the workshop and any particular topics you would like to cover (<200 wds)

REGISTRATION

Once your application is approved, you must register and pay via the conference website by **31 OCT**.
